Castoria.

"Castoria is an excellent medicine for chiliren. Mothers have repeatedly told me of its good effect upon their children."

Da. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

H. A. ARCHER, M. D.,

Senator Morgan Talks. New York, Feb. 27. - In honor of Senator Morgan, who sailed on the New York Saturday, a committee of well known merchants and others gathered upon the deck of the American liner to wish the senator God speed. Replying to an address made by the chairman of the committee, Mr. Morgan spoke in part as follows: "It is singular that at this time there

are grouped together three immense propositions relating to the Pacific ocean, the Behring sea arbitration, which also may be said to involve the whole north Pacific the Nicaragua canal, in which I had the happiness to e identified, because I knew a good thing when I saw it, and then, coming upon us suddenly, the Hawaiian propo-

Then we shall see the outcome of the power and spirit of a great occasion. Let us move to the front."

JOHNSTOWN DUPLICATED.

A Village in Hungary Overwhelmed and VIENNA, March 1.—The Johnstown disaster was duplicated in many particulars in the village of Gergeley, in Hungary, yesterday, over 1,000 lives being lost by a sudden flood in the Danube. The 1,600 people of the town awoke yesterday morning to find their homes surrounded by water. Many of them took refuge in the church and school, which were constructed of stronger materials, hoping that these buildings would be able to hold out against the lood. Mothers and children clung to the altar beseeching the intercession of the saints as they saw their homes disappearing in the raging stream.

The swelling waters finally began to beat against the church and school building with such strength that at last the refugees decided that to remain would mean the destruction of all of them. They then started out into the flood which surged nearly to the waists of grown people. Fathers and mothers carried their children and the sick and feeble were helped along by those who were stronger. They fled as fast as they would in the direction of Paks. One mother with five children san

into the waters and perished. Hur dreds of others, the exact number of whom is yet unknown, were drowned in the flood, and the survivors reached Paks in a most deplorable condition

MORE BUSINESS-LESS PULITICS.

Whatever may be the good accom plished by great political agitation, such as we have lately experienced in this country, it certainly has one very bad result. Many good people are apt to expect too much through the medium of legislation. They the medium of legislation. They look to the government to furnish a remedy for many of the evils that can never be reached by the influence of laws. They ignore or fail to realize the great truth that prosperity must be achieved by and through the operations of correct business methods. It is not a function of government to help us, but to enable us to help ourselves by protecting us in our rights of life, liberty and property, and by guaranteeing to us securty, and by guaranteeing to us secur-ity against unfair and unjust legisla-When this has been done w must do the balance ourselves.
